

## **SUMMARY**

- 10+ years of professional experience in finance, sports, logistics, hospitality and academia
- Collaborator as Individual contributor and capable of assuming leadership responsibilities
- Contributor to Open Source projects via Ruby for Good organization
- Capable of composing and maintaining complete documentation for any sized project

## **SKILLS**

- Ruby, Rails, RSpec, SQL, Javascript, NodeJS, HTML, CSS, Liquid, YAML, Jekyll, Sinatra, ActiveRecord, APIs, JSON, Bootstrap, MVC, TDD, Agile Practices, Git, Github, Heroku, Postman, CircleCI, Docker, GraphQL

## **SELECTION OF EDUCATION AND RELEVANT CERTIFICATIONS**

### **Turing School of Software and Design**

**08/2022 - present**

- gained proficiency in back-end web development to build complete, functional web applications
- learned to work in an agile development environment, embracing methodologies like Scrum and Kanban
- enabled my ability to adapt to changing requirements and deliver high-quality software

### **DePaul University and Western Michigan University**

- Chicago, IL and Kalamazoo, MI
- Bachelors of Science in Commerce - Finance (graduated DePaul)

## **SELECTION OF SOFTWARE PROJECTS**

### **Best-Esty-Project** (Fully deployed on the web, via Heroku cloud infrastructure)

- **Tech Stack: Ruby, Rails, RSpec, ActiveRecord, PostgreSQL, SQL, Heroku**
- Monolithic app with complex DB structure, ORM/SQL querying and API consumption
- Group Project | 40 Hours
- Utilized Git and Github version control systems to manage workflow and to outline code architecture functionality at a high level through Test-driven development and Object Oriented programming
- Successfully resolved DevOps deployment issues between cloud infrastructure and app prior to delivery

### **YouTube API Project**

- **Tech Stack: Rails, SQL, Ruby, RSpec, JSON**
- Demonstrates ability to test and organize API consumption and exposure
- Solo project | 40 hours
- API-only app built using Service-Oriented Architecture and Test-Driven Development
- Achieved test coverage of greater than 95%
- Completed requirements > 48 hours ahead of deadline
- Effectively hand-rolled serializers to adhere to JSONapi specs

### **Board-Together Service-Oriented full stack application** (Fully deployed on the web, via Surge cloud infrastructure)

- **Tech Stack: Rails, React, GraphQL, Bootstrap, Javascript, Express**
- Fully deployed distributed board game library live on the web
- Group Project | 40+ Hours
- Successfully implemented GraphQL endpoints and exposed external data to front-end within 24 hours
- Effectively organized and ran daily standups to focus MVP and identify successes and blockers for team of 8
- Implemented test factories using FactoryBot to accelerate RSpec test creation to achieve test coverage > 95%

## **SELECTION OF PROFESSIONAL EXPERIENCE**

### **Supreme Lending**

**04/2021 - 08/2022**

- **Sr. Mortgage Processor - remote**
- Extreme proficiency in calculating self employed income, tax return calculations, and jumbo mortgage scenarios

### **Amerifirst Lending**

**09/2019 - 04/2022**

- **Sr. Mortgage Processor - remote**
- Perform a thorough review and analysis of borrower's credit, employment, income and assets as required by the particular loan program before submitting to underwriting

## **SELECTION OF INTERESTS/HOBBIES**

- Ice hockey, photography, road cycling, carpentry, music production/creation, live performance, literature, epicurean
